

# Project Quotation – Mimi Kids Learning Platform

---

## Project Overview

**Project Name:** Mimi – Learning & Playing Platform for Kids

**Project Type:** Web Platform (Landing Page + Core System – Phase 1)

**Technology Stack:** MERN Stack (MongoDB, Express, React, Node.js) + Tailwind CSS

**Purpose:** Client-ready product with scalable architecture

---

## Project Duration

**Timeline:** Approx. **30–45 Days**

The project will be delivered in milestone-based phases to ensure quality and transparency.

---

## Project Costing

**Estimated Total Cost:**

 **₹90,000 – ₹1,20,000** (*Ninety Thousand to One Lakh Twenty Thousand Rupees Only*)

Final cost will depend on final scope confirmation.

---

## Cost Breakdown

### UI/UX Design

- User flow & wireframes
- High-quality UI design (Kids-friendly)
- Responsive layouts

**Cost:** ₹20,000 – ₹30,000

### Frontend Development

- React-based frontend
- Tailwind CSS styling
- Animations (GSAP / Framer Motion)
- Responsive for all devices

**Cost:** ₹35,000 – ₹50,000

## Backend Development

- Node.js & Express APIs
- MongoDB database setup
- Basic authentication & admin logic
- Scalable architecture

**Cost:** ₹20,000 – ₹30,000

## DevOps & Deployment

- Server setup
- Build & deployment support
- Environment configuration

**Cost:** ₹5,000 – ₹10,000

## Testing & Final Delivery

- Functional testing
- Bug fixes
- Final handover & walkthrough

**Cost:** ₹5,000

---

## Team Involved

- Full Stack Developer (MERN)
  - Frontend Developer(React + Tailwind)
  - Backend Developer(Node + Express + APIs)
  - UI/UX Designer
  - Project Coordination & Delivery
- 

## Payment Terms

**Payment Structure:** Milestone-Based

- **30% Advance** – Project initiation
- **30% on First Milestone** – Few discussed core functionalities
- **20% on Second Milestone** – Development completion
- **20% After Deployment** – Final delivery & handover

Payments to be cleared within **5–7 days** of milestone completion.

## What's Included

- UI/UX design
  - Frontend & backend development
  - Admin functionality (Phase 1)
  - Testing & deployment
  - Source code handover
- 

## Not Included

- Domain purchase or renewal
  - Server hosting or cloud charges
